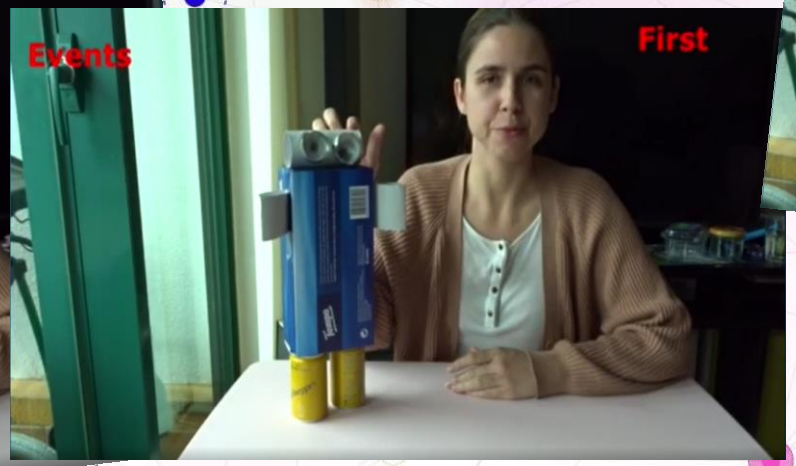
A Show and Tell of a Robot

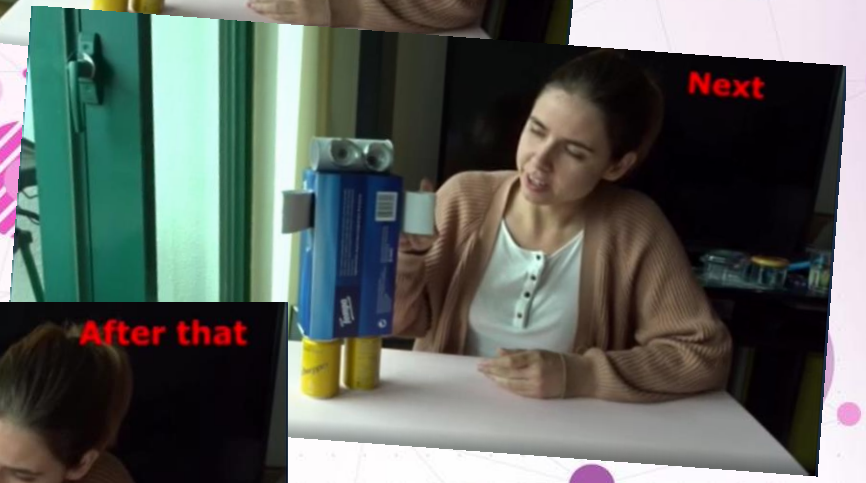
A Show and Tell of a Robot

Learning objectives:
1. Students can make a robot using recyclable materials.
2. Students can show and tell about their robots.

Learning Steps:
Step 1: Watch Video 1-Michael recycle.
Step 2: What are recyclable materials?
- Use Google Search to find out what recyclable materials are.
- Watch Video 2 - Recyclable materials.
- Read the power-point - Recyclable materials.
Step 3: Watch Video 3 and Video 4 -How to make a robot using recyclable materials.
Step 4: Collect recyclable materials and use them to make a robot.
Step 5: Show and Tell.
- Take a video to show your robot and tell about it* in 1~2 minute(s).
*Watch Video 5 to see how you can do Show and Tell.
Step 6: Share your work using Google Classroom.
(1) Upload your video. OR (2) Upload your photos to the Google Classroom.

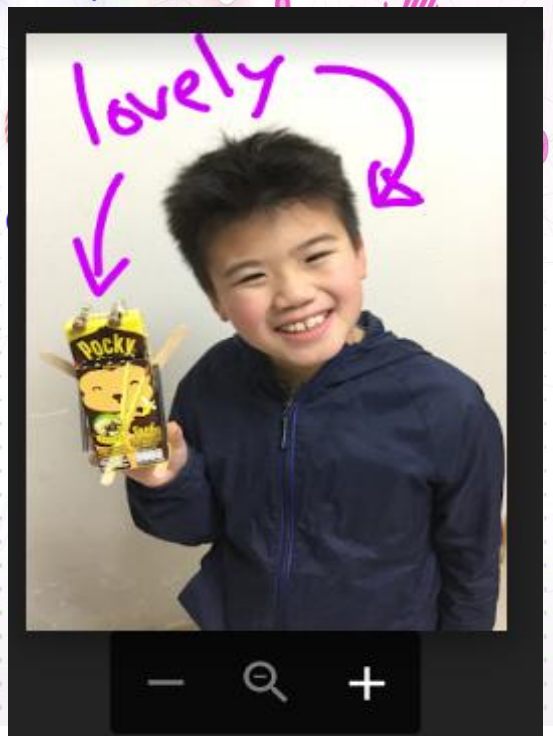
A Show and Tell of a Robot





Ms. Julke Cichon Joanna showed us how to make a little robot .

Creative robots were shown by our happy boys.



A Show and Tell of a Robot

Wow!

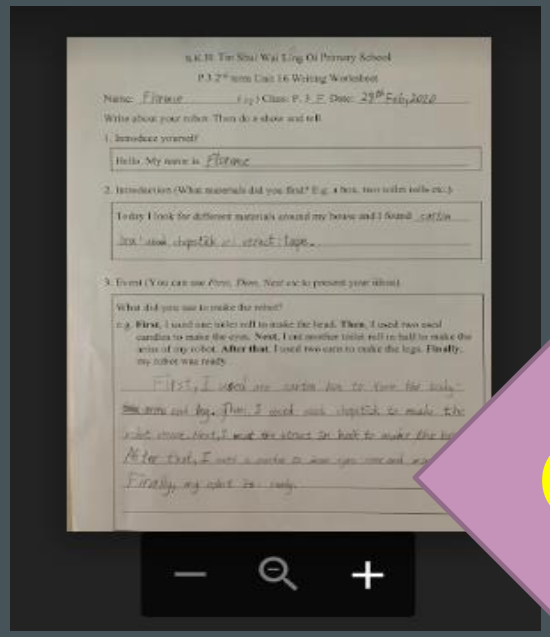
He used different materials to make his robot.

What an interesting robot!

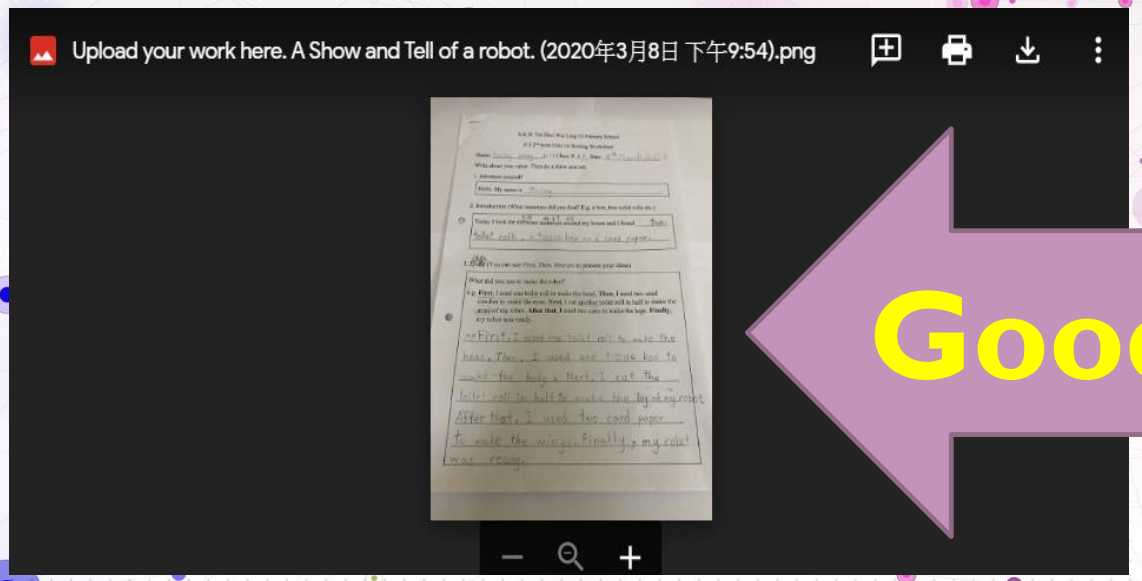
The arms are movable.

Great job!

3F YEE TSZ KI FLORENCE



Good job !



Good job !

CHING NAM showed her lovely robot.

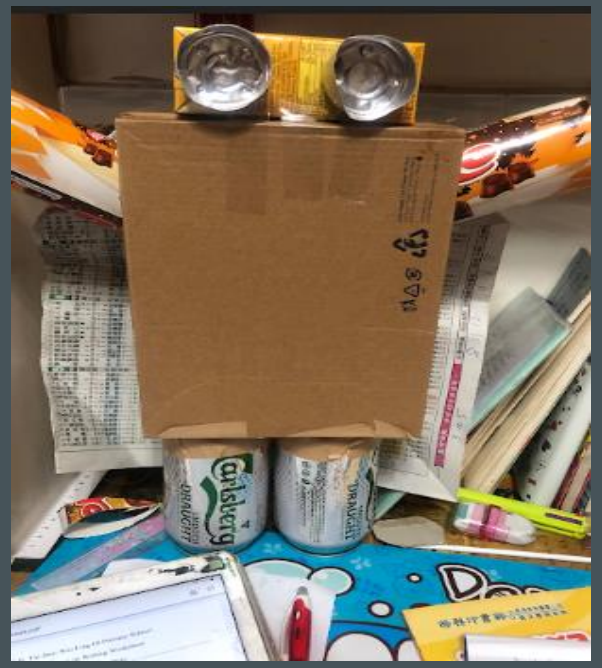
Do you like her robot?

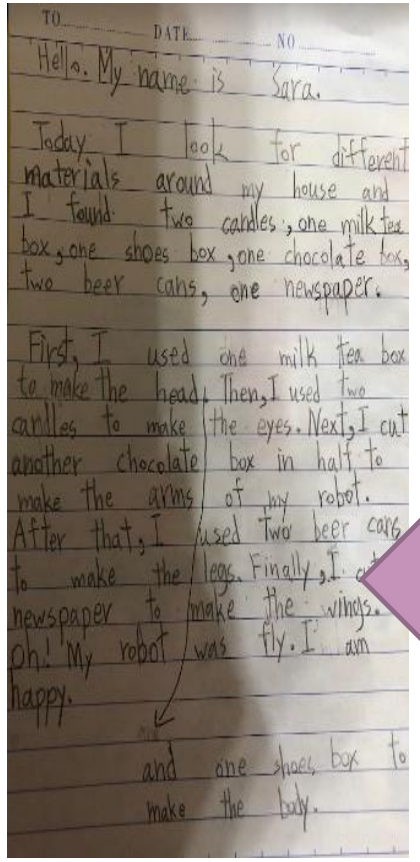
3F WONG CHING NAM

Do you like TSZ CHING's robot?

I like her robot very much.

3B YIP TSZ CHING



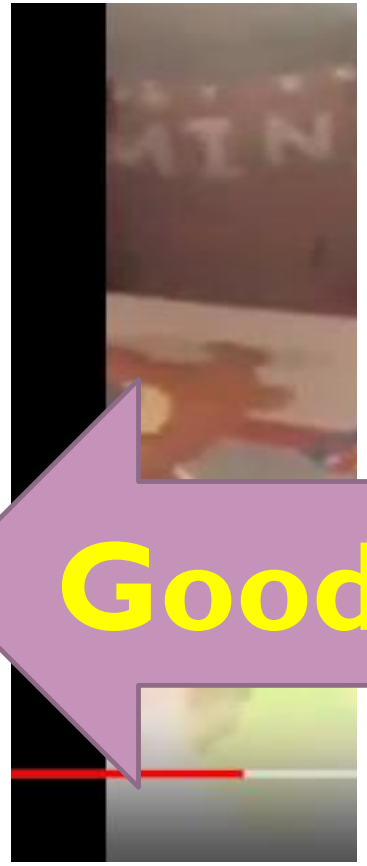


Hello. My name is Sara.

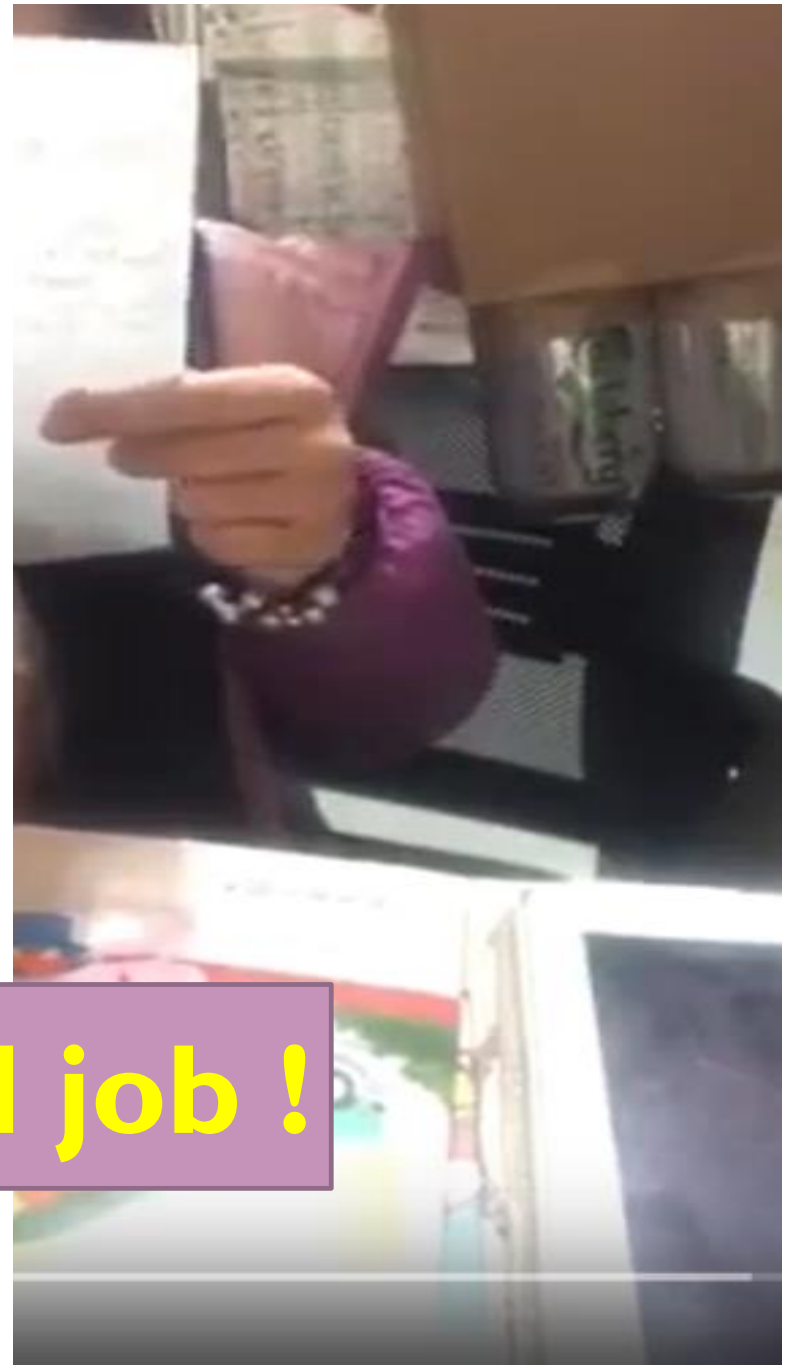
Today I look for different materials around my house and I found two candles, one milk tea box, one shoes box, one chocolate box, two beer cans, one newspaper.

First, I used one milk tea box to make the head. Then, I used two candles to make the eyes. Next, I cut another chocolate box in half to make the arms of my robot. After that, I used two beer cans to make the legs. Finally, I cut newspaper to make the wings. Oh! My robot was fly. I am happy.

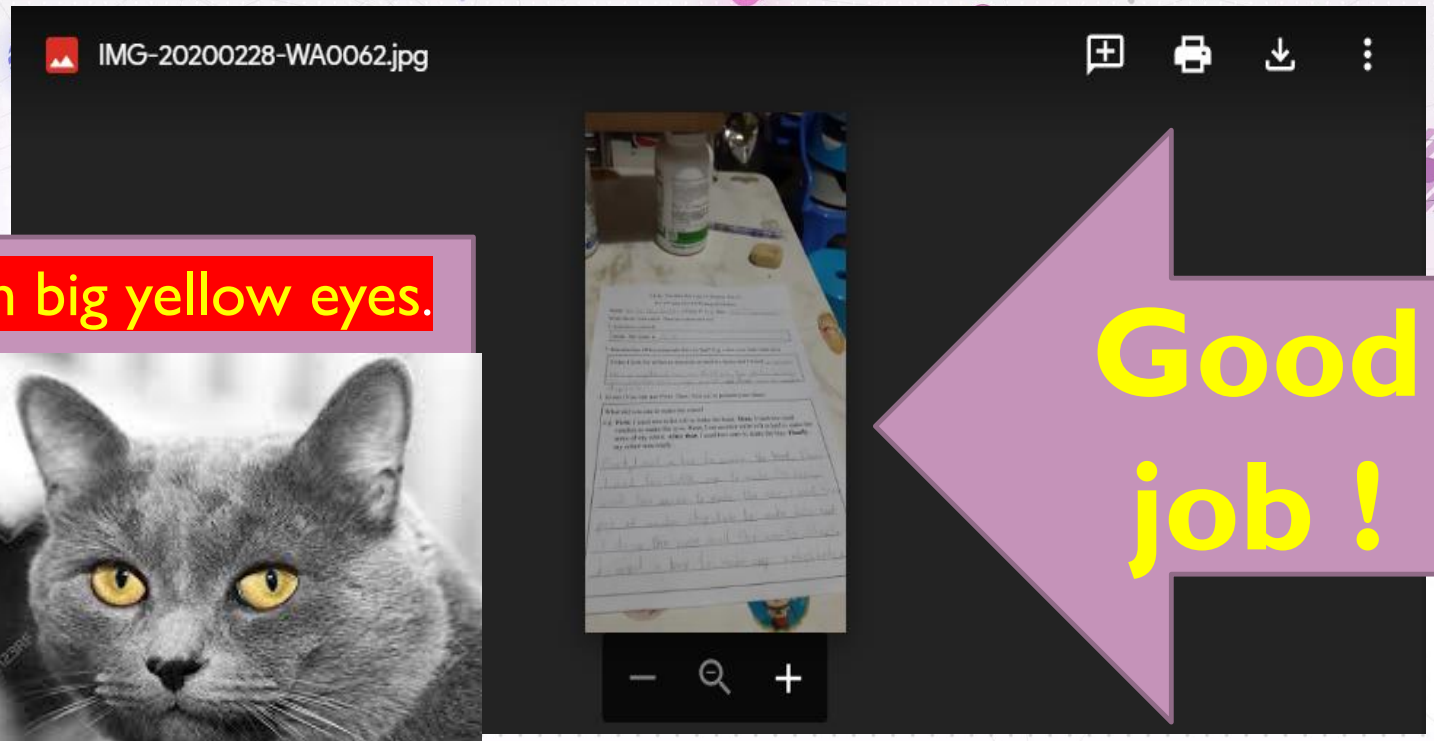
and one shoes box to make the body.



Good job !



Robot with big yellow eyes.



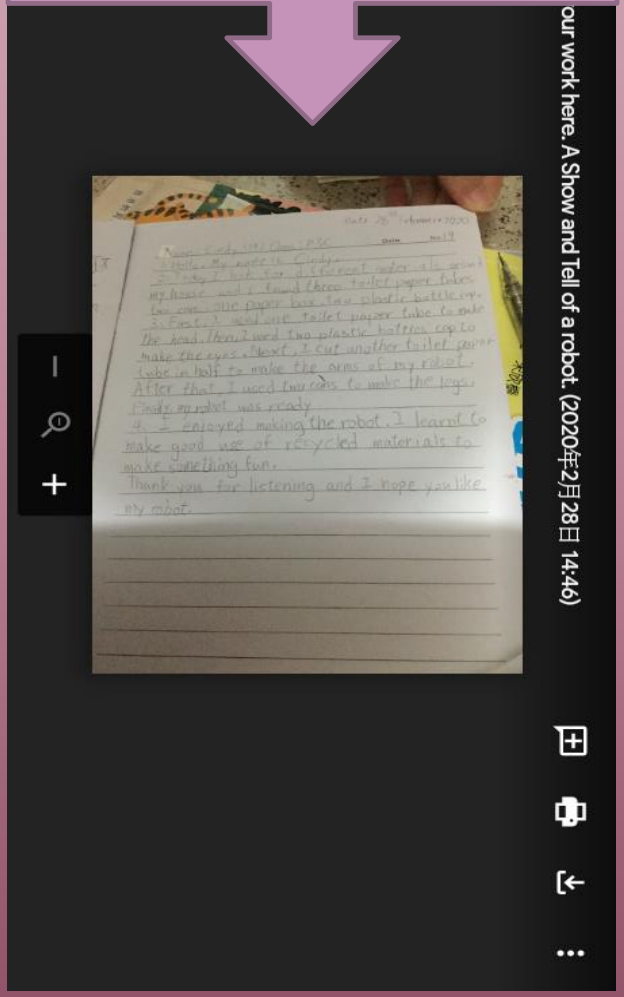
Good job !

3B WOO TIN NAM

TIN NAM did a good job !

3C YUNG SUET FAN

Good job !



Suet Fan's robot is

awesome!
